## Revolution RFID Lock Set

The Opendoor Revolution lock set utilises RFID technology to offer seamless 'contactless' operation, enhancing convenience and ease of use. Its slim, sleek design lends itself to both new and refurbishment projects - a varying selection of lock cases, fore ends and keep plate options aid a simple upgrade from older mechanical and mag-swipe systems.

### Applications:

Hotel, spa resort & Leisure complex  
 Student accommodation & University campus  
 Residential accommodation  
 Commercial office block

### Features:

High security & tamper proof design  
 Security deadbolt for added privacy  
 Emergency one action egress from inside  
 Latch alarm for improper door closing  
 Fire rated  
 Smartphone compatible

### Accreditations:

*EN 14846:2008 - Electromechanically operated locks & striking plates*

*EN 50371:2012 - R&TTE, low-power human RF exposure & European EMC, LVD directive*

*EN 1634-1:2014 - Fire resistance & smoke control for a minimum of 30/60 minutes*

### Audit/Data trial function:

The lock set has the ability to store 1000 transactions of which token (card, fob, wristband, mechanical key etc.) opened the door at what time & date. In addition, the lock set also records when the door was opened from inside.
